

*EMF's product and service are superior. They are always under budget and on time with customized service.*

*Having worked with Paul Filipe on other ventures and now EMF, I requested that my GC use Extreme Metal as a supplier for my Key Largo Resort Property.*

## WHY EMF METAL?

**SUPERIOR PRODUCTS AND SERVICE** Our skilled craftsmen create premium metal roofing systems offering architectural appeal and superb performance - all backed by independent testing and certification. EMF can fabricate panels to just about any size, color or specification to meet your exacting eye, and we offer the industry's best finishes including Maxalume and Kynar 500® Coatings.

**ENERGY EFFICIENT AND SUSTAINABLE** A metal roofing system from EMF can minimize cooling and heating costs up to 40% — nice on your wallet and even better for the environment. Lower energy use helps to reduce emission of greenhouse gases and other pollutants. And because our metal panels are made from 25 to 60% recycled content they have a minimal carbon footprint.

**VALUE BUILT TO LAST** A properly installed EMF metal roofing system will last for decades. Its low weight, durability and exceptional strength offer superior protection from high winds and fire making it a perfect choice for tough Florida conditions. Maximum longevity combined with low required maintenance means that your EMF roof will have the lowest life cycle cost of any roofing material available.

**SERVICE • DURABILITY • LONGEVITY • VALUE**  
That is why our customers keep coming back to Extreme Metal Fabricators

## EMF PANEL SYSTEMS

### CONCEALED FASTENER SYSTEMS

**PEAKMAX** 1 1/2" Mechanical Seam  
**SNAPMAX** 1" Nail Strip Snap-Lock Seam  
**SUPREMEMAX** 2" Mechanical Seam  
**TOPMAX** 1 1/2" Nail Strip Snap-Lock Seam  
**ULTRAMAX** 1 3/4" Snap-Lock Seam

### EXPOSED FASTENER SYSTEMS

**CORMAX** 3/4" Corrugated Panel  
**EMAX** 3/4" RIB Panel  
**PBRMAX** 1 1/4" RIB Panel  
**VMAX** 5V Crimp Panel

### MATERIALS & FINISHES

**MaxAlúme** This Al-Zn coated sheet steel is made to the highest standards offering superior reflectivity qualities over other types of metal roofing. In atmospheric corrosion tests, Maxalume easily outperforms aluminum in marine, industrial and rural environments. This revolutionary metal is also hurricane and wind-driven rain tested.

**Kynar 500® Coatings** Unparalleled in the industry, these high performing PVDF coatings come in bright, vivid, long-lasting colors and offer advanced resistance to UV degradation. Kynar 500® premium finishes provide enhanced reflectivity and emissivity, color retention, chalk-resistance and durability.

**CopperMax** EMF's striking copper roofing system is as durable as it is beautiful. This high-end material is weather, wind and fire resistant, the longest lasting of any metal, easy to install, and virtually maintenance free. There's nothing like an eye-catching CopperMax roof.

### FEATURES

- Concealed or exposed fastener systems
- Heavy gauge material options
- Over 25 colors and custom shades
- Curving capability
- Custom lengths
- Free estimates
- Free onsite production
- Florida Product & Miami-Dade approved
