

Overview

01

Founded in 2018 with mission to simplify HOA management, and to increase transparency and engagement among homeowners.

02

The only software providers in the HOA market at the time were focused on large-scale property management companies.

03

The self-managed, board driven HOAs were using 5-6 different platforms to manage their HOAs as volunteers with full time jobs.

04

PayHOA was the first to the market for self-managed HOAs and continues to be the leader, with our all-in-one solution for HOA management.
