Re: Juno Isles Water Main Replacement Phase 2 – East of Ellison Wilson Rd.

Dear Juno Isles Phase 2 Neighbors,

We hope this letter finds you well. We're writing to provide you with an update regarding the commencement of the Juno Isles Phase 2 Water Main Replacement Project. As you may already be aware, Amici Engineering Contractors and its subcontractors will be spearheading the replacement of the existing water main within your neighborhood.

The project team has finalized all necessary pre-construction activities and is excited to announce that we'll be breaking ground and commencing construction activities the week of September 15, 2025. Work will commence within Phase 1 of the project, which includes Ascott Rd. (east of Ellison Wilson Rd.), Wilton Rd., and Crafton Rd. Regular working hours are scheduled from Monday through Friday, 7:00 AM to 5:00 PM. While occasional night or weekend work may be necessary, rest assured that we'll provide advance notice for any activities outside normal business hours.

During the construction phase, residents may experience temporary inconveniences such as detours, dust, and brief interruptions in water service. To ensure safe passage around construction areas, maintenance of traffic devices, such as the familiar orange cones, will be placed to guide motorists and pedestrians.

Following approval from the Health Department for the new water mains, brief water service interruptions will be necessary to facilitate the seamless transfer of water services to the new main and to perform water main connections. Advanced notice will be provided to all affected properties in anticipation of these brief interruptions.

We apologize in advance for any inconveniences associated with this project and sincerely appreciate your cooperation and understanding during the construction and completion of these crucial utility improvements. Your patience and support are invaluable in achieving the shared goal of enhancing your neighborhood.

Should you have any questions or require additional information, please feel free to contact project team at (561) 815-4770 or Info@TheMerchantStrategy.com or visit the FAQ section on the project webpage at www.junoislesprojectphase2.com

Thank you for your understanding and cooperation.
